T&T BISSO Salvages Towing Vessel

T&T BISSO RESPONSE salvages a 40-foot towing vessel, which sank in 40 feet of water near Pier 21 at the Port of Galveston after a crane boom fell onto the vessel. T&T MARINE SALVAGE responded immediately to the mishap, placing 500 feet of oil containment boom around the towing vessel, which contained about 1,800 gallons of diesel fuel and 100 gallons of crude oil. There was minimal environmental impact.
